**EXACTA HD™**

EXACTA HD™ incorporates the latest Freeform technological benefits with the simplicity of an RX that is exactly as ordered. This Freeform Progressive lens places the complete design on the back of the lens and boasts a variable corridor up to a minimum of a 14 seg height. The RX is not compensated and easy to read.

**BENEFITS:**

- Freeform Progressive lens with your exact RX. (It is not compensated)
- 100% backside progressive with the latest technology.
- 25-30% larger fields of vision over traditional progressives.
- Comfortable power transition due to having a corridor which allows the eye to move naturally.
- Variable corridor to 14 segment height.
- Add Power: up to +4.00

**POWER RANGES: (By material and combined power limits)**

MATERIAL	TYPE	POWER RANGE	CYLINDERS
