Flat Top 28 bifocal patients can now enjoy the same personalized High Definition benefits your Progressive and Single Vision patients now enjoy with Flat Top 28 HD™ lenses from US Optical.

BENEFITS

- Software design compensates for aberrations induced by oblique astigmatism.
- Field of Vision in the Distance is wider by 25%.
- Personalized for each prescription, face and frame.
(measurements for pantoscopic tilt, vertex distance and panoramic angle can be added)
- Available in the same materials as traditional Flat Top 28.
