Single Vision wearers of wrap frames can now enjoy the same personalized High Definition benefits your progressive wrap wearers enjoy with Single Vision Wrap HD™ without peripheral distortions in their wrap conventional and sunglass frames.

BENEFITS

- Lightest, thinnest best optical quality lens.
- Software design compensates for aberrations induced by oblique astigmatism (especially in the higher prescriptions).
- Field of Vision is wider up to 25-35%.
- Available in 6 & 8 base.
- Easy to edge for conventional, sport or sunglass frames.
- Personalized for each prescription, face and frame (measurements for pantoscopic Tilt, Vertex distance and Panoramic angle can be added).
- Available in at least 8 different materials.
- Zeiss AR coatings can be added to lenses.
